# COLORFUL WIK-FED POTS

SEVERAL NEW COLORS—DRESS UP YOUR VIOLET COLLECTION  
A SCIENTIFIC FLOWER POT FOR AFRICAN VOILETS AVAILABLE IN TWO SIZES  
4 INCH DIAMETER AND 5 INCH DIAMETER

Plants take on new life when fed the correct amount of water by this method. In "Wik-Fed" a wick of Fiberglass yarn feeds water by capillary attraction from a water holder direct to the roots of the plants. Growers of African Violets make this irrigation the most satisfactory system. Fill water reservoir every six or seven days.

The "Wik-Fed" has two parts—the base or lower part which holds the water which is fed to the plant by the wick passing through a hole in the pot or upper part. The upper pot is available in several pastel shades—colors which harmonize any type of decoration.

See List of Colors Below

New and Popular

Both base and pots are designed in rounded graceful lines of non-breakable and odorless plastic. Center of base does not rest on table or shelf top by 1-16 inch. This eliminates water stains on fine furniture which is so customary with the conventional pot-holder.

The regular size (4 inch) is super for young African Violets and other plants. Excellent for forcing Hyacinths, Narcissus, Chinese Lilies, etc. And they keep their nice bright finish and can be used over and over again.

Pastel Blue, Marble, Lavender, Bright Red, Marble Green, Ivory, Yellow and Pink, all with black bases. Also a new ALL BRONZE Color. Bright Bronze in both top and base. Very popular. Chartreuse, Gulf Coral and Canyon Gray. These come with Hunter Green Bases. Beautiful Colors. You may order just whatever number of different colors you need.

Price for 4 inch pots \$1.25 ea.

3 for \$3.50

6 for \$6.50 or 12 for \$12.00 prepaid

Instructions for repotting and watering sent with each order

Fill Water Reservoir Once Each Week

Larger pots (5 in. size). These hold twice as much soil as the 4 inch size. Excellent for larger plants.

Price for larger size \$1.60 ea.

3 for \$4.60

6 for \$9.00

12 for \$17.25

all prepaid.

(All Colors Available, The Same as the 4" Pots)

We have enthusiastic users of Wik-Feds from Alaska to Brazil

## Fert-L-Fed Pots

FOR AFRICAN VIOLETS  
AND OTHER PLANTS

A New and Practical Flower  
Growing Pot

Easy to water. No spilling or changing. Pour water or plant food into base. Water enters flower pot thru specially designed opening in bottom. Plants can be watered and fertilized in a jiffy—without muss or fuss or danger of burning the most tender roots.

Nothing better to prevent water damage to the leaves of African Violets or similar plants. The soil stays moist at all times. Nice size too! 5 inch diameter at the top. Sill-size base. Comes in several rich colors, Red, Yellow, Green, Bronze, Coral, Black, Chartreuse and Gray.

75c each.

3 for \$1.90

6 for \$3.60

12 for \$6.00

Be sure to order by name "Fert-L-Fed" and choice of colors.

## Prop-R-Fed Planters

This sill-size planter is very practical. Beautiful colors and modern design. It is self-watering, self-feeding and self-aerating. Moisture and food reach the roots from the bottom. No danger of foliage damage to African Violets or other plants. Sill-size to comfortably fit on window or mantle or most any "show-off" spot around the room.

Water and food are placed on the feeding tray. Capillary action carries the food and water directly to the plant roots for healthier growth. Plants are watered and fertilized properly, grow properly—and with less care.

PROP-R-FED planters are 3½ inches wide and 8 inches long and are 3½ inches deep. Will support two nice African Violets. Colors—Cherry Red, Lemon Yellow, Forest Green, Old Bronze, Jet Black, White, Canyon Gray, Gulf Coral and Chartreuse. Be sure to order the colors you want.

New Lower Prices—\$1.10 each, 3 for \$3.00, 6 for \$5.00  
12 for \$9.85

PROP-R-FED Planters are wonderful for growing plants from seed in your window. Tomatoes, Petunia, Peppers, Marigolds, Salvia or most any other seed you want to start. See our special potting soil for this purpose. 3 lbs. fill 2 planters. 1½ lb. will fill one planter and will be mailed for 55c.

Fine for starting Tuberous Begonia Too.
